Treasurer.

AUDITORS REPORT.

The undersigned, auditors of the accounts of the selectmen and treasurer for the year 1905-6, report that they have examined the accounts and find the receipts to have been \$15,947.-15, from Feb. 15, 1905 to Feb. 15, 1906, and disbursements paid on orders by the selectmen from 1 to 367, inclusive, equal \$15,753.15. all of which are properly vouched and correctly cast.

LEVI P. FISHER,
FRED B. HOLT,
Auditors.

Report of Town Library.

Whole number books purchased the last year,	108
Received by gift,	5
There have been loaned,	5,319
Largest number any month,	565

The coming year found one hundred new books on the shelves of the library and it is hoped among them there will be something of interest for both young and old. Also that just pride will be taken in caring for these new friends, to keep the covers bright and pages clean and to have a care for their welfare. Among the list there is found biographies of eminent men and women, nature study for the botanist, books of travel, the charming story, "Fairy Tales," historic lore for the student, the spicy book for the boy and treasures for the art lover. So it seems that many a day may be made brighter and our vision broader by receiving these as guests in our homes.

School Report.

PENACOOK SCHOOL DISTRICT.

It is our privilege to submit the following report for the year ending June 23, 1905:

In all the departments under the instruction of able teachers the schools have maintained the high standard of work which has characterized them in the past.

The table of attendance for the year ending June 23, 1905, shows an increase of sixteen in the whole number of different pupils enrolled over the previous year. This increase is largely in the primary school, seventy-four different pupils being registered. If the attendance continues to increase it will be necessary to divide this school as no one teacher, however well qualified, can do justice to so large a number. Some of the best educators believe that not more than forty pupils should be assigned to a room.

The severe weather of the past winter and the prevalence of contagious diseases, measles and scarlet fever, seriously interfered with good attendance. This was of course unavoidable, but the many cases of tardiness from one to five minutes is something the parents should take in hand. Punctuality should be the aim of every child.

A decided improvement in the number of cases of truancy shows that the work has been faithfully performed, and reflects credit on the officer in charge.

The district was unfortunate in the loss, by resignation, of Miss Mary A. McGuire, who for three years and one term had served it in a conscientious and efficient manner. However it is certainly a pleasure to those interested in our school to know that the city of Concord was ready to accept her services at a liberal advance in salary.

The committee hope to bring about some progressive change in the near future. In regard to the teaching of music, a special teacher to spend a little time each week and work in conjunction with the regular teacher would be of great benefit.

BOSCAWEN TOWN SCHOOL DISTRICT.

More than twenty years ago progressive citizens saw the need of a change in our school system. The crowding together of eight or nine grades, and sometimes more, under the direction of one teacher was productive of such small results that all concerned agreed that some method must be tried, whereby this large number of grades, with only a few pupils in each, might be obviated.

For some reason, or reasons, this change has been discussed, but not adopted until now. The past year, 1905-6, a system of grading the pupils has been tried and thus far proved a success. Schools within a reasonable distance of each other, or having means of conveyance, have been united and two departments, a primary and grammar, have been formed.

The course of study as given by State Supt. Morrison has been followed, but as this schedule allows for only eight grades and the Concord High calls for nine years' preparation, we have arranged for this extra work and the program is in the hands of the printer. During the year and at its close, examinations are given in each study, to test the progress made by the pupils and anyone showing a satisfactory grasp of the subjects taught is allowed to pass on to the next grade. In this way a pupil sees at once wherein he is weak and can more easily remedy the defect. All completing the nine years' work will be given a certificate to that effect.

If more of the parents would interest themselves in the work their children are doing and instead of condemning the whole system, as judged by a single visit, or often not even that but by mere hearsay, they would realize that the demands of today are not the same as those of ten or twenty years ago and even the slight misunderstandings we now have would be avoided.

Anyone visiting our primary department can easily see the results obtained by the painstaking, conscientious work of the teacher in charge. We have been fortunate in retaining her services for five terms, and hope she may be with us for as many more. In our grammar school we have been able to extend our school year to thirty-four weeks by use of the Academy fund, thus giving a good opportunity to those who use it to the greatest advantage.

In order to give the system now just established a fair trial, we need to continue it for at least a year or two longer, that those in the lower grades may pass on into the higher and give us a fair opportunity to judge of the methods now in use.
